

Discovery at Tenacre Workshop Series

“Going Up Higher”

Speaker: Joey Hoffman, C.S.

Saturday, April 8, 2017 9:00 a.m.— 4:45 p.m.

The premise of this talk is a directive given throughout the Bible and Mary Baker Eddy’s writings that each moment is an opportunity to “go up higher.” This invitation to a clearer view encourages us to arise - to go up higher in our understanding and demonstration of God’s love!

To do this, the talk urges a deep look at *what is appearing in individual consciousness*, and the results of “...lifting thought above error, or disease, and contending persistently for truth...” (*Science and Health with Key to the Scriptures*, p. 400) The message is seen through the lens of I John 3, and includes a focus on praying for the world, and the role of *The Christian Science Monitor* and our periodicals in those prayers.

The workshop is free of charge. If you wish to have lunch or dinner in our cafeteria the cost is \$7.50 per meal. Payment in the form of a check can be mailed to the address below prior to the date of the workshop. Tenacre does not accept credit cards. Please visit our website for more information and the **required** registration form at www.tenacre.org. You may also phone Karen Janitz at 609-279-2335 or send an email to kjanitz@tenacre.org. Registration is due by April 1, 2017.

*“Discovery
can happen any time, any place
but especially here.”*
